Quality Engineered For Lifetime Use

Horse Owners and Farriers need to take hoof care to the next level. To do so, we found that we needed a record keeping system, and a measuring device.

The **Bulb Gauge** was developed for measuring:

- Heel Height
- Bulb to Buttress
- Bulb to Frog Apex
- Bulb to Break Over (toe length)
- Hoof Width
- Medial & Lateral Balance.
- Proper placement of horse shoes

Folkman Ranch Inc system captures critical information, and gives repeatable results from:

- HOOF - to - HOOF,
- TRIM - to - TRIM
- SHOEING - to - SHOEING,
- FARRIER - to - FARRIER.

Our **record keeping systems** can be adapted to any hoof care methods. This system will assist.

- **Horse Owners** can now manage their own trim schedule
- New Farriers achieve balance
- Fine tune the Professional Farrier

*This quality tool is made of **Poly Carbonate, Aluminum, & Stainless Steel.** It is truly a wise investment.*

Engineered by professional Farriers

Bulb Gauge

Precision Monitoring of the growth pattern and trimming of the individual horse's hoof is now possible.

Folkman Ranch Inc creative record keeping system can also evaluate the individual horse's needs.

- A record for each horse makes sense, each horse and each hoof is unique.
- Filling in the questionnaire form and evaluation form makes it easy to keep the horse's file current.
- Future problems may be noticed and evaluated more quickly by checking the data on file.
- This system allows accurate communication with veterinarians.

APRIL 23, 2008 INNER

**HEEL HEIGHT &
BULB TO BUTTRESS**

The **Bulb Gauge** can measure **Heel Height** in $\frac{1}{4}$ " increments up to $2\frac{3}{4}$ "

Note: the double red lines are at 1" increments

This photo shows:
1" **Heel Height**
1" **Bulb to Buttress**

**BULB TO BUTTRESS &
BULB TO FROG APEX &
BULB TO BREAK OVER**

The **Bulb Gauge** can measure **Bulb to Break Over** up to 7"

Use center sight hole to achieve **Medial & Lateral** balance

This photo shows:
1" **Bulb to Buttress**
4" **Bulb to Frog Apex**
5 $\frac{7}{8}$ " **Bulb to Break Over** (toe length)

HEEL HEIGHT

Mark the heel with a **FELT MARKER**
(at the hair line intersection)

This photo shows:
1" **Heel Height**

Gauge Dimensions:

- 5" wide
- 7 $\frac{1}{2}$ " long
- 2 $\frac{3}{4}$ " high
- Weight: 10 oz

- ***Permission is given to make unlimited copies of the Folkman Ranch Inc record keeping system that you received from us, but not for resale.***
- ***The Part One, "Owner Supplied Information" will provide ongoing data for quick reference for Horse Owners and Farriers.***
- ***The Part Two, "Evaluation Information" is to record before & after measurements and for taking notes of each individual hoof, etc.***
